Please consider talking to your doctor about prescribing formulary medications, which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you.

The drug formulary is regularly updated. Please visit [www.FloridaBlue.com](http://www.FloridaBlue.com) for the most up-to-date information.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

## Introduction

Florida Blue and Florida Blue HMO are pleased to present the Medication Guide. This is a general guide that includes an abbreviated listing of Brand and Generic prescription medications that may be covered under your plan. Since coverage for medication varies by the plan purchased by you or your employer, it's important that you refer to your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement for complete coverage details.

Current members are encouraged to log on to their member account for plan specific details about their prescription medication coverage. Go to [www.FloridaBlue.com](http://www.FloridaBlue.com), click on the Members tab, then click on Your Member Account to get started. Once registered, you can look up a medication by name and compare your cost at different pharmacies. You'll see notes that indicate if a medication requires a prior authorization or is not covered by your plan. For questions, please call the customer service number listed on your member ID card. For the hearing impaired, call Florida TTY Relay Service 711.

**Si desea hablar sobre esta guía en español con uno de nuestros representantes, por favor llame al número de atención al cliente indicado en su tarjeta de asegurado y pida ser transferido a un representante bilingüe.**

**NOTE:** The decision concerning whether a prescription medication should be prescribed must be made by you and your physician. Any and all decisions that require or pertain to independent professional medical judgments or training, or the need for, and dosage of, a prescription medication, must be made solely by you and your treating physician in accordance with the patient/physician relationship.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Preface

### Medication list

The Medication Guide includes the Preferred Medication List and some commonly prescribed Non-Preferred prescription medications. The Preferred Medication List reflects the current recommendations of Florida Blue and is developed in conjunction with Prime Therapeutics' National Pharmacy & Therapeutics Committee. A newly FDA approved prescription medication may not be covered until reviewed and approved by the Pharmacy & Therapeutics Committee.

**NOTE:** This is not a complete listing of all covered prescriptions medications. Florida Blue reserves the right to modify (add, remove or change) the tier or apply limits of coverage to any prescription medication in this Medication Guide at any time.

To reduce your out-of-pocket expenses, please take a copy of this Medication Guide with you each time you visit your physician. Please consider asking your physician to prescribe Generic medications, or if necessary, one of the Preferred Brand prescription medications listed in the Medication Guide whenever appropriate. Your cost for Generic and Preferred Brand prescription medications on the Medication List are lower than Non-Preferred Brand prescription medications.

### Pharmacy benefit programs

There are various types of pharmacy benefit programs; Generic Only and multiple Tier benefits. To understand which program you have, please refer to your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement or call the number on your member ID card for more information.

#### Generic only benefit

Tier 1: Covered Generic Prescription Medications

#### 3 tier benefit

Tier 1: Covered Generic Prescription Medications

Tier 2: Covered Preferred Brand Prescription Medications

Tier 3: Covered Non-Preferred Brand Prescription Medications or Medications not listed on the Preferred Medication List

#### Multiple coverage benefit

Tier 1: All Other Covered Generic Prescription Medications

Tier 2: All Other Covered Preferred Brand Prescription Medications

Tier 3: Covered Non-Preferred Brand Prescription Medications or Medications not listed on the Preferred Medication List

Tier 4: Covered Specialty Medications as indicated in the Medication List

Condition Care Rx\* Value/HSA Preventive Prescription Medications

\* Refer to the Condition Care Rx Program section of this Medication Guide for a description of the program

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if the Condition Care Rx Program applies to your plan and the cost share.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## **What you need to know about generic medications**

Florida Blue encourages the use of Generic medications as a way to provide high-quality medications at reduced costs. Generic medications are as safe and effective as their Brand Name counterparts, and are usually considerably less expensive.

A Food and Drug Administration (FDA) approved Generic medication may be substituted for its Brand Name counterpart because it:

- Contains the same active ingredient(s) as the Brand medication
- Is identical in strength, dosage form, and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

## **Changes to the formulary**

The medications listed in the Medication Guide are subject to change at any time. The Medication List is reviewed quarterly to examine new medications and new information about medications that are already on the market concerning safety, effectiveness and current use in therapy. The most up-to-date information about modifications to the medications listed in this Medication Guide can be found by:

Going to [www.FloridaBlue.com](http://www.FloridaBlue.com).

- Click on the Members tab
- Click on the Login Now button and either Login or Register
- Once Logged in, click on My Plan, then select Pharmacy from the drop down menu
- Under Medication Guide/Approved Drug Lists, click **Medication Guide** or **Medication Guide Updates**

Medication Guides are posted every January and July, and Medication Guide Updates are posted January, April, July and October.

There are varying reasons why changes are made to the medications listed in the Medication Guide:

- The tier level of a Brand prescription medication included on the Medication List may increase (change from Tier 2 to Tier 3) when an FDA-approved bioequivalent Generic prescription medication becomes available.
- Newly marketed Brand prescription medications are usually introduced on Tier 3 until the opportunity exists to review the medication level, at which time a determination will be made as to which tier will apply based on safety, efficacy and the availability of other products within that class of medications.

## **Additional requirements or limits on coverage**

Some covered medications may have additional requirements or limits on coverage. This section refers to our Responsible Rx programs including Prior Authorization, Responsible Quantity and Responsible Steps.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Prior Authorization Program

The **Prior Authorization Program** encourages the appropriate, safe and cost-effective use of medication. If you are currently taking or are prescribed a medication that is included in the Prior Authorization program list of medications, your physician will need to submit a request form in order for your prescription to be considered for coverage. If you do not request and/or receive prior approval, the medication will not be covered. Medications on the Medication List that require Prior Authorization for coverage are indicated in the Prior Authorization column following the product name.

Note: Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if Prior Authorization requirements apply to your plan. Coverage details are also available to you by logging into the member section of [www.FloridaBlue.com](http://www.FloridaBlue.com) or by calling the customer service number listed on your member ID card.

### Obtaining Prior Coverage Authorization

Information about **Prior Authorization** and forms for how to obtain a Prior Authorization approval can be found here:

#### Prior Authorization Program Information and Forms

**NOTE:** Your provider is required to complete and submit the Prior Authorization form in order for a coverage determination to be made.

1. Once a decision is made, you and/or your doctor will be informed of the decision.
2. If the decision is made to authorize coverage, the medication(s) and/or supplies may be obtained from a participating pharmacy or at the appropriate location if the medication(s) will be administered by a health professional. Prior Authorization approval does not waive your financial responsibility.
3. If a decision is made to deny authorization, you are free to purchase the prescription medication, supplies or Over-the-Counter (OTC) medication, but you will have to pay the full cost of the medication and will not be entitled to reimbursement under your plan.

**NOTE:** You have the right to request an appeal if coverage authorization is denied. Please refer to the 'How to Appeal an Adverse Benefit Determination' subsection of the Claims Processing and Appeal or Grievance Process section in your current Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement for information on how to file an appeal.

## Responsible Quantity Program

The **Responsible Quantity Program** encourages the appropriate, safe and cost-effective use of medication by setting a maximum quantity per month for a medication or supply. The quantity limitations are based on the Food and Drug Administration guidelines and the manufacturer's dosing recommendations.

Information about the Responsible Quantity Program and steps for how to obtain an exception can be found here:

#### Responsible Quantity Program Information

## Responsible Steps Program

The **Responsible Steps Program** promotes the appropriate, safe, and effective use of medications and helps you save on prescriptions. Responsible Steps is based on nationally recognized therapeutic guidelines, clinical evidence, and research. Prescription medications included in the Responsible Steps Program are not covered unless you have tried one or more covered alternative medications first.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## **Responsible Steps Program (Medical Pharmacy)**

Physician-administered Prescription Drugs which are rendered in a physician's office may be included in the Responsible Steps for Medical Pharmacy Program. If you are taking a medication in the Responsible Steps Program, please contact your physician/provider to discuss what medication options are best for you.

Information about the Responsible Steps Program and the Responsible Steps for Medical Pharmacy Program and steps for how to obtain an exception can be found at: [\*\*Responsible Steps Program Information\*\*](#) or [\*\*Responsible Steps for Medical Pharmacy Program Information\*\*](#).

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if Responsible Steps requirements apply to your plan. Coverage details are also available to you by logging into the member section of [www.FloridaBlue.com](http://www.FloridaBlue.com) or by calling the customer service number listed on your member ID card.

### **Exception requests**

If, for medical reasons, you require a quantity of medication outside the Responsible Quantity Program limits or you cannot use one of the alternative medications and require the medication listed in the Responsible Steps or Responsible Steps for Medical Pharmacy Programs, or you require a tier exception for an oral contraceptive drug, your physician may submit an exception request by completing one of the forms below

[\*\*Prior Authorization Forms\*\*](#)

[\*\*Responsible Quantity Authorization Form\*\*](#)

[\*\*Responsible Steps Program Information and Authorization Forms\*\*](#)

[\*\*Responsible Steps for Medical Pharmacy Information and Authorization Forms\*\*](#)

[\*\*Contraceptives Tier Exception Request Form\*\*](#)

### **Covered over-the-counter (OTC) medications**

An over-the-counter medication can be an appropriate treatment for some conditions and may offer a lower cost alternative to some commonly prescribed medications. Your pharmacy benefit may provide coverage for select OTC medications. Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if OTC medications are covered under your plan. Only those OTC medications prescribed by your physician and designated on the Medication List with "OTC" in parenthesis following the medication name are eligible for coverage.

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if this benefit applies to your plan. Coverage details are also available to you logging into the member section of [www.FloridaBlue.com](http://www.FloridaBlue.com) or by calling the customer service number listed on your member ID card.

### **Three-month supply**

Some plans allow you to purchase up to a three-month supply of medications. Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if your plan includes this benefit. In addition to being able to obtain up to a three-month supply of medication through our mail order pharmacy, you may be able to receive up to a three-month supply of your medication through a participating retail pharmacy. Please refer to your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement for complete coverage details.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Mail Order Pharmacy

Obtaining prescription medications through the Mail Order Pharmacy may reduce the cost you pay for your prescription medications.

Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if your plan provides a mail order pharmacy benefit.

Members who have pharmacy benefits through Florida Blue can access and print out the **Mail Order Pharmacy Form** on our website at [www.FloridaBlue.com](http://www.FloridaBlue.com).

**NOTE:** If the original prescription was filled at a pharmacy other than the Mail Order Pharmacy, you must submit a new, original three-month supply prescription with a quantity of up to a three-month supply and not less than a two-month supply along with the Registration and Prescription Order Form. Prescriptions may not be transferred from a retail pharmacy to the Mail Order Pharmacy.

## Medications that are not covered

Your pharmacy benefit may not cover select medications. Some of the reasons a medication may not be covered are:

- The medication has been shown to have excessive adverse effects and/or safer alternatives
- The medication has a preferred formulary alternative or over-the-counter (OTC) alternative
- The medication is no longer marketed
- The medication has a widely available/distributed AB rated generic equivalent formulation
- The medication has been repackaged — a pharmaceutical product that is removed from the original manufacturer container (Brand Originator) and repackaged by another manufacturer with a different NDC

A list of medications that are not covered may be found at [\*\*Medications Not Covered List\*\*](#)

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine the medication exclusions that apply to your plan. Coverage details may also be available to you by logging into the member section of [www.FloridaBlue.com](http://www.FloridaBlue.com) or by calling the customer service number listed on your member ID card.

## Patient Protection Affordable Care Act (PPACA) Mandated Coverage

### Preventive medications

The Patient Protection and Affordable Care Act (PPACA) provides for members to receive coverage for certain preventive care services, medications, and immunizations at no out-of-pocket costs based on recommendations from the U.S. Preventive Services Task Force (USPSTF). These USPSTF recommendations include services that have been shown to be important in preventing disease as well as providing for additional women's services such as FDA-approved contraception.

A list of drugs covered under our Preventive Medications Program may be found at: [\*\*Preventive Medications List\*\*](#)

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Immunizations

Certain vaccines which are covered under your wellness benefits can be administered by Pharmacists that are certified. Not all pharmacies provide services for vaccine administration. It is important to contact the pharmacy prior to your visit to ensure availability and administration of the vaccine.

A list of vaccines that are covered under your Pharmacy benefits may be found at: [\*\*Pharmacy Benefit Vaccines List\*\*](#)

## Women's preventive Services

As a result of the expanded PPACA Preventive Services benefits for women's services, certain *generic* contraceptive medications or devices (e.g., oral contraceptives, emergency contraceptive, and diaphragms) are covered at no cost share when purchased at a participating pharmacy.

A list of medications and devices covered under this benefit may be found at: [\*\*Women's Preventive Services List\*\*](#)

## Oral Chemotherapy Drugs

Oral chemotherapy drugs are drugs prescribed by a physician to kill or slow the growth of cancerous cells in a manner consistent with the national accepted standards of practice. A list of these drugs can be found at: [\*\*Oral Chemotherapy Drug List\*\*](#)

## Condition Care Rx Program

The Condition Care Rx Program is designed to help manage the cost of medications used to treat certain chronic conditions and encourage medication adherence. Members who have the Condition Care Rx Program as part of their benefits are eligible to receive medications from the Condition Care Rx Program Value List/Health Savings Account Preventive List at a reduced cost.

A list of medications that are part of the Condition Care Rx Value Program may be found at: [\*\*Condition Care Rx Program Value List\*\*](#)

A list of medications that are part of the Condition Care Rx Program for Health Savings Account (HSA) compatible plans may be found at: [\*\*Condition Care Rx Program HSA Preventive List\*\*](#)

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine if the Condition Care Rx Program applies to your plan and the cost share. Coverage details may also be available to you by logging into the member section of [www.FloridaBlue.com](http://www.FloridaBlue.com) or by calling the customer service number listed on your member ID card.

## Formulary addition request

Physicians may request the addition of a medication to the Preferred Medication List by submitting a written request to Florida Blue.

Please mail to:

Florida Blue  
Attn: Pharmacy Programs  
P.O. Box 1798  
Jacksonville, FL 32231-0014

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Notice

This Medication Guide shall not extend, vary, alter, replace, or waive any of the provisions, benefits, exclusions, limitations, or conditions contained in the Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement. In the event of any inconsistencies between the Medication Guide and the provisions contained in the Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement, the provisions contained in the Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement shall control to the extent necessary to effectuate the intent of Blue Cross and Blue Shield of Florida and Health Options, Inc.

### Specialty Pharmacy medications

Specialty Pharmacy medications are high-cost injectable, infused, oral or inhaled medications that generally require close supervision and monitoring of the patient's therapy.

**NOTE:** Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement for information on how Specialty Pharmacy medications are covered on your plan. Coverage details are also available by calling the customer service number listed on your member ID card.

Specialty Medications are divided into two categories:

- **Self-Administered Specialty Medications** – Patients administer these Specialty Pharmacy medications themselves. Because these medications are intended to be self-administered, these medications may not be covered if administered in a physician's office. If these medications are not obtained from a participating specialty pharmacy, out-of-network cost shares may apply.  
**A current listing of Self-Administered Specialty Medications can be found here**
- **Provider-Administered** Specialty Medications– These medications require the administration to be performed by a physician. The Specialty Pharmacy medications are ordered by a provider and administered in an office or outpatient setting. Provider-administered Specialty Pharmacy medications are covered under your medical benefit. These medications can be obtained from any health care provider and out-of-network cost shares do not apply.  
**A current listing of Provider-Administered Specialty Medications can be found here**

**NOTE:** We have noted medications that may be covered as either Self-Administered and/or Provider-Administered. These Specialty Pharmacy products can be obtained in either setting.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## **Participating Specialty Pharmacy Provider**

If you are currently taking a Specialty Pharmacy medication, then your network for Specialty Pharmacies is limited to the following participating Specialty Pharmacy providers. Unless indicated below, any other pharmacy is considered a non-participating Specialty Pharmacy even if it participates in Florida Blue's networks for non-Specialty Pharmacy medications.

### **Caremark Specialty Pharmacy Services**

All Products  
Phone: 1.866.278.5108  
Fax: 1.800.323.2445

### **Caremark Specialty Pharmacy**

### **Caremark Hemophilia Services**

Hemophilia Products

(Mon-Fri., 9:00 a.m. to 7:30 p.m. EST)  
Fax: 1.866.811.7450

### **Caremark Hemophilia**

### **Prime Therapeutics Specialty Pharmacy**

**(Prime Specialty Pharmacy)**  
Telephone: **1.877.627. (MEDS) 6337**  
Fax: **1.877.828.3939**

TTY 711

### **Prime Specialty Pharmacy**

Prime Therapeutics Specialty Pharmacy  
(Prime Specialty Pharmacy) is a wholly owned subsidiary  
of Prime Therapeutics LLC.

**NOTE:** Specialty Pharmacy medications are not covered when purchased through the Mail Order Pharmacy.

Self-administered specialty medications, as classified by Florida Blue, obtained outside of the state of Florida may be obtained by a member with a written prescription through the preferred Specialty Pharmacy provider Caremark Specialty.

If a member resides or is traveling outside the state of Florida and needs to receive a provider-administered specialty medication, the prescribing physician should coordinate with the participating Specialty Pharmacy provider for their area or contact the local BlueCross and BlueShield Plan. This coordination can help ensure members receive their medications at the in-network cost share.

Members that receive a written prescription directly from their provider for a provider-administered specialty medication should contact customer service for further assistance.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Using the Medication Guide

The Medication List is organized into broad categories (e.g., Antibacterials).

Drug Name	Drug Tier	Specialty/Tier 4	Prior Authorization	Quantity Limits	Responsible Steps
<b>erythromycin delayed-release caps</b>	1				
ERYTHROMYCIN ETHYLSUCCINATE	2				
ZITHROMAX packets	2				
<b>TETRACYCLINES</b>					
ACTICLATE*	3				•
ADOXA/CK/TT*	3				•
ALODOX*	3				•
AVIDOXY/DK*	3				•
demeclocycline	1				
DORYX*	3				•

- 1 The first column of the chart lists the medication name. Generic medications are listed in lowercase **boldface** (e.g., **demeclocycline**) Brand Name medications are capitalized (e.g., ZITHROMAX packets)  
Separate medication entries are required for some dosage forms or routes of administration including extended-release, delayed-release, rectal, injectable, otic, ophthalmic, vaginal, nasal, orally disintegrating, patches, and topical products.
- 2 **Note:** Self-administered injectable medications are designated in the Medication List with "inj" following the medication name (e.g., **enoxaparin inj**).  
The second column indicates the Tier level:
  - 1 (Lowest Cost): Covered Generic Prescription Medications
  - 2 (Higher Cost): Covered Preferred Brand Prescription Medications
  - 3 (Highest Cost): Covered Non-Preferred Brand Prescription MedicationsThe third column indicates if the medication is a Self-Administered Specialty\* medication.
- 3 \* If your Pharmacy plan has a separate Specialty medication Tier, then all Specialty medications will apply that cost share regardless of the Tier level displayed in the Medication List. Check your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement to determine how coverage of Self-Administered Specialty medications applies to your plan.
- 4 The remaining columns indicate the Responsible Rx Pharmacy Program(s) that apply to the prescription medication (e.g., Prior Authorization, Responsible Quantity and Responsible Steps). If an indicator is present in the column(s), then the Responsible Rx Program applies.  
An asterisk (\*) next to a drug name signifies that this drug may not be covered. Please refer to your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement.

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## Abbreviation/acronym key

<b>caps</b>	.....	capsules
<b>chew tabs</b>	.....	chewable tablets
<b>conc</b>	.....	concentrate
<b>crm</b>	.....	cream
<b>ext-release</b>	.....	extended-release
<b>inhal</b>	.....	inhalation
<b>inj</b>	.....	injection
<b>lotn</b>	.....	lotion
<b>NP</b>	.....	non-preferred
<b>ODT</b>	.....	orally disintegrating tablets
<b>oint</b>	.....	ointment
<b>OSM</b>	.....	osmotic-release
<b>OTC</b>	.....	over-the-counter
<b>PA</b>	.....	Prior Coverage Authorization required
<b>QL</b>	.....	Responsible Quantity Program — quantity limit applies
<b>RS</b>	.....	Responsible Steps Program — Pre-requisite drug required
<b>SI</b>	.....	Self-Administered Injectable
<b>SL</b>	.....	sublingual
<b>SP</b>	.....	Specialty Pharmacy
<b>soln</b>	.....	solution
<b>supp</b>	.....	suppositories
<b>susp</b>	.....	suspension
<b>tabs</b>	.....	tablets
